Section C

Concerns:	We started way too late and ended up having to take our extra day to submit, so we'll start earlier. It also ended up being pretty difficult to share data, which was bad considering successive parts of the report built off of each other. What ended up happening is that each of us basically individually did the entire project by ourselves, and only looked at each other's results to make sure we weren't completely wrong

Section D

On behalf of all team members: (SIGN BY TYPING YOUR NAME)	Ganesh Somashekhar
Date:	2/13/2026

Instructions

Step 1: Fill out Section A.

Step 2: List all team members in Section B (Column 1).

Step 3: Discuss as a team and write down a brief *List of Contributions* to the assignment for each team member (Column 2).

Step 4: As a team, assign and write down a *Contribution Score* between 0 and 100 for each member (Column 3). The *Contribution Score* should be consistent with the *List of Contributions*, 100 being indicative of the most contributions. Contribution Scores should sum to 100 across all members.

Step 5: Calculate the *Contribution Factor* for each member and write it down (Column 4). The Contribution Factor is calculated by multiplying the Contribution Score by N/100, where N is equal to the number of members.

Step 6 (Optional): Write down any concerns you have about the functioning of your team in Section C.

Step 7: Have one team member act as the Secretary by filling out and signing by typing their name in Section D on behalf of all team members.
